Location: Bengaluru, Karnataka, India

CAREER OBJECTIVE

Motivated and enthusiastic B.E. CSE (IoT & Cyber Security) student with a strong interest in software development, IoT systems, Cloud, AI, cyber security, and emerging technologies. Seeking opportunities to apply technical skills, gain practical experience, and contribute to innovative projects.

EDUCATION

Bachelor of Engineering (CSE - IoT & Cyber Security including Blockchain)

REVA University

2025 – 2029

PUC (Class XII)

Surabhi PU College

Year of Completion: 2024

SSLC (Class X)

Prarthana English Medium School

Year of Completion: 2022

TECHNICAL SKILLS

- C Programming
- Python
- Java
- Git & GitHub
- Microsoft Word, PowerPoint, Excel
- IoT Fundamentals
- Gen AI

PROJECTS

Product Authenticity Verification and Tracking System

- Developed a system concept for verifying product authenticity and tracking products throughout the supply chain.
- Improved transparency and helped reduce counterfeit products.

Secure Cold Chain Logistics

- Designed an IoT-based monitoring system for temperature-sensitive goods.
- Enabled real-time monitoring and alert generation.

CERTIFICATIONS

- Python 101 for Data Science
- Generative AI Mastermind
- Data Visualization with Python
- Data analysis with Python

ACHIEVEMENTS & ACTIVITIES

- Participated in technical presentations and project exhibitions.
- Completed team-based projects.
- Active learner of Full Stack web development and AI technologies.

SOFT SKILLS

- Communication
- Teamwork
- Problem Solving
- Leadership
- Time Management

LANGUAGES

- English
- Kannada
- Hindi

INTERESTS

- Cloud Computing
- Web Development
- Software Development
- Artificial Intelligence
- Internet of Things (IoT)
